Background

The creation of the cooperative Clean Power Europe is the result of the experience of the cooperative Energie 2030, who works as a pioneer for renewable energy in Belgium and Germany since 1995. Part of the Clean Power Europe founding members are also Energie 2030 co-founder. They wanted to create something new and wider...

CLEANPOWEREUROPE.EU

Diversity & Development

Clean Power Europe supports projects in the areas of:

- Energy
- Water management
- Ecological Construction
- Food & agriculture
- Art & culture
- Health
- Education
- Development cooperation

CLEANPOWEREUROPE.EU

inspiring change and diversity

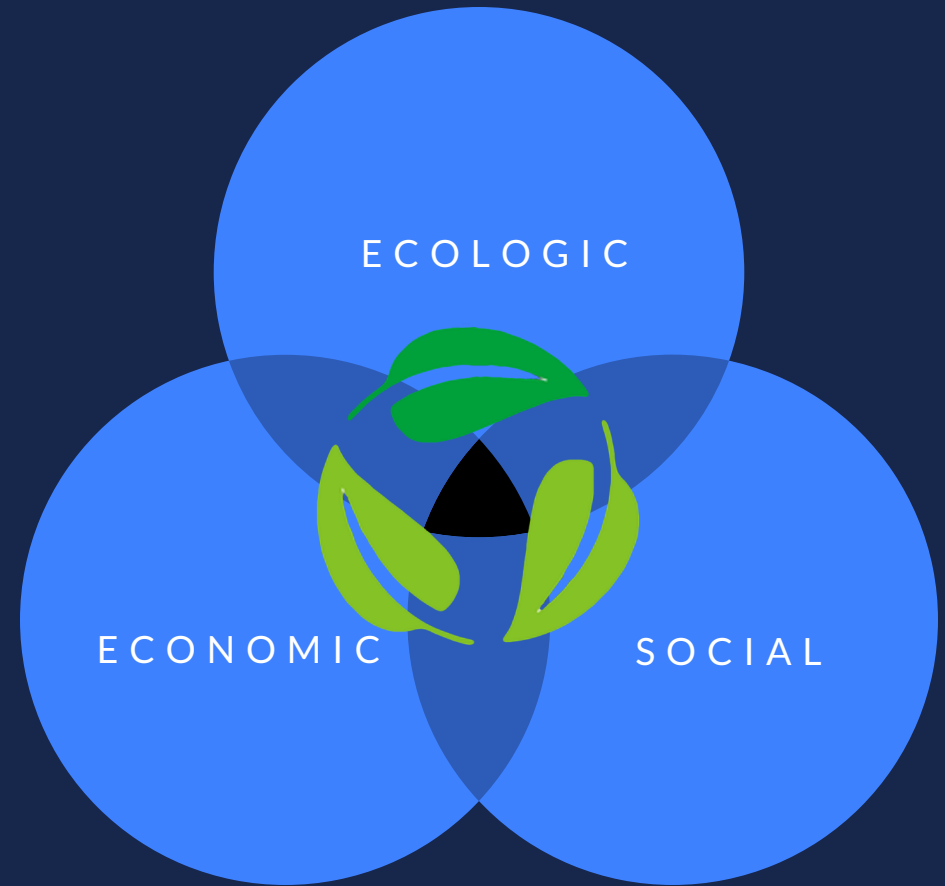

- finance solutions for a sustainable development of our society
- transparent and ethic movements
- gives an alternative way to the money-system
- propose independent financing

Ethics

*Citizens' initiative for
sustainable projects*

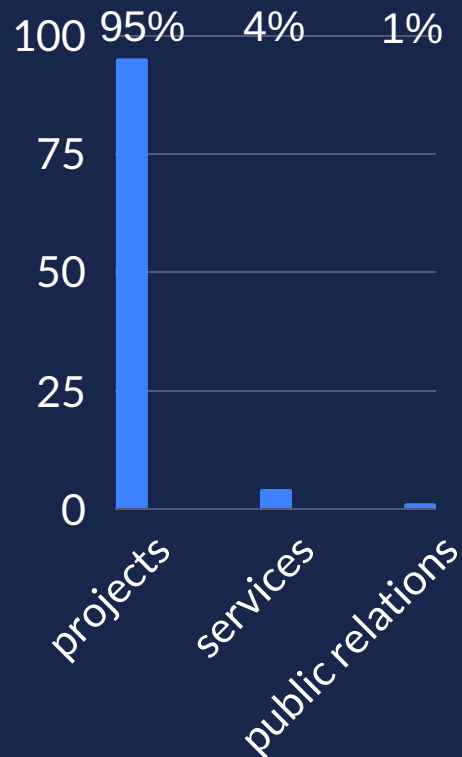

- finances its own projects
- co-finances projects by partners
- provides micro-credits
- makes third-party investments

Democracy & Transparency

95% of the capital are invested in sustainable projects. Up to 6% dividends are distributed to the members.

up to
6%

Dividends

FSMA

Thanks to the recognition by the FSMA (Belgian Control Office of the Financial Market), the dividends are not subject to withholding tax.

CLEANPOWEREUROPE.EU

1 member = 1 vote

Every member is invited to the annual general assembly, where the rate of interest is voted.

1 member = 1 vote.
